

100+ Image Prompt Shortcuts

A practical visual-style guide for creating content, edits, illustrations, educational graphics, social posts, ads, and more.

📌 **Important:** These are convenient prompt shortcuts and style labels—not official universal ChatGPT commands. For best results, combine a shortcut with a clear description of what you want to create.

Camera, Photography & BTS

WHAT IT DOES	SHORTCUT	HOW TO USE IT
Behind the Scenes	/BTS	Creates a behind-the-scenes version with cameras, lights, crew, monitors, and production details.
Cinematic Look	/cinematic	Adds a dramatic film-like composition, lighting, depth, and atmosphere.
Editorial Photo	/editorial	Creates a polished magazine-style fashion or lifestyle photograph.
Candid Moment	/candid	Makes the scene feel naturally captured rather than formally posed.
Paparazzi Shot	/paparazzi	Adds a celebrity-event, spontaneous camera-capture feel.
Polaroid	/polaroid	Transforms the image into an instant-film photograph aesthetic.
Film Grain	/filmgrain	Adds subtle analog texture and grain for a film-like finish.
Vintage Camera	/vintagecamera	Gives the image an older camera/photo aesthetic.
Flash Photography	/flashphoto	Uses direct flash lighting for a bold, candid look.
Phone Photo	/iphonephoto	Creates a natural smartphone-camera style image.
Fisheye Lens	/fisheye	Adds an exaggerated ultra-wide curved-lens perspective.
Close-up	/closeup	Focuses tightly on the subject or an important detail.
Wide Angle	/wideangle	Shows more of the environment around the subject.
Aerial View	/aerialshot	Shows the scene from a high overhead perspective.
Drone View	/droneview	Creates a cinematic aerial/drone perspective.
Macro Shot	/macro	Shows tiny details in extreme close-up.
Motion Blur	/motionblur	Adds a sense of movement and speed.
Long Exposure	/longexposure	Creates light trails or smooth movement effects.
Night Shot	/nightshot	Adapts the scene to a dramatic nighttime setting.
Golden Hour	/goldenhour	Adds warm, soft sunlight from sunrise or sunset.

Art & Illustration

WHAT IT DOES	SHORTCUT	HOW TO USE IT
Handwritten Notes	/handwritten	Turns educational content into neat handwritten-style notes.
Sketch	/sketch	Converts the subject into a hand-drawn sketch.
Doodle	/doodle	Adds playful doodles, annotations, and drawn elements.
Watercolor	/watercolor	Uses soft painted watercolor textures.
Oil Painting	/oilpainting	Creates a traditional rich painted-canvas look.
Pencil Art	/pencilart	Renders the subject using pencil shading and linework.
Charcoal	/charcoal	Creates bold monochrome charcoal-style artwork.
Ink Drawing	/inkdrawing	Uses expressive ink lines and illustration techniques.
Comic Book	/comicbook	Creates bold comic panels, outlines, and dramatic visuals.
Manga	/manga	Applies Japanese manga-inspired linework and composition.
Anime	/anime	Creates an anime-inspired illustrated look.
Webtoon	/webtoon	Uses clean digital comic styling suitable for vertical storytelling.
Pixel Art	/pixelart	Converts the subject into retro pixel-based artwork.
Vector Art	/vectorart	Creates clean, scalable graphic shapes and lines.
Flat Design	/flatdesign	Uses simple shapes, minimal depth, and modern graphic styling.
3D Render	/3Drender	Creates a polished computer-generated 3D appearance.
Clay Render	/clayrender	Makes subjects look like stylized clay models.
Low Poly	/lowpoly	Builds the subject from simplified geometric polygon shapes.
Origami	/origami	Transforms forms into folded-paper constructions.
Paper Art	/paperart	Creates layered, cut-paper or crafted paper visuals.

Social Media & Content

WHAT IT DOES	SHORTCUT	HOW TO USE IT
Instagram Carousel	/carousel	Designs content intended to flow across multiple swipeable slides.
Instagram Feed	/instagramfeed	Formats visuals with a polished social-media feed aesthetic.
Story Template	/storytemplate	Creates a vertical story-style layout.
Thumbnail	/thumbnail	Creates a bold, attention-grabbing cover image.
Viral Post	/viralpost	Uses punchy, scroll-stopping social-media composition.
Meme Style	/memestyle	Creates a humorous, internet-native meme format.
Sticker Pack	/stickerpack	Creates multiple cute sticker-like cutout elements.
Scrapbook	/scrapbook	Uses layered photos, tape, paper, notes, and personal details.
Collage	/collage	Combines multiple images and textures into one composition.
Moodboard	/moodboard	Creates a curated collection of visuals around one aesthetic.
Yearbook	/yearbook	Gives the image a nostalgic school-yearbook feel.
Photo Dump	/photodump	Creates a casual collection of candid images and moments.
Before & After	/beforeafter	Creates a clear visual transformation comparison.
Aesthetic Grid	/aestheticgrid	Organizes visuals into a clean multi-image grid.
Infographic	/infographic	Turns information into a visually structured graphic.
Sticky Notes	/stickynotes	Presents ideas as colorful note-like elements.

Education & Information
